Content Strand:	Comprehension (readiness) « back
Annual Goal #1	_____ will increase reading readiness skills in the area(s) of _____ (phonemics, print awareness, letter knowledge, decoding, word recognition, comprehension) to _____ as measured by _____ (running records, probes, anecdotal records, work samples, etc.)
Objective #1	Use background knowledge and prior experience to interpret stories.
Objective #2	Discriminate between fact and fiction.
Objective #3	Recognize that stories have a beginning, middle, and end.
Objective #4	Predict what happens next in a story.
Objective #5	Make predictions and discuss stories that have been read.
Objective #6	Tell a story from pictures (to match illustrations).
Objective #7	Retell stories that have been read aloud (e.g., character identification, setting, problem, solutions, and sequence of events).
Objective #8	Identify sequence of events, main ideas, and details or facts in literary and informational text.
Objective #9	Respond to readings in many ways (e.g., story mappings, topic webbing, etc.)
Objective #10	Reads (or memorizes) books with simple repetitive language patterns.
Objective #11	Identify and use reference materials and nonfiction sources (e.g., library, picture dictionary, and wall charts to locate information).
Content Strand:	Decoding and Word Recognition (readiness) « back
Annual Goal #2	_____ will increase reading readiness skills in the area(s) of _____ (phonemics, print awareness, letter knowledge, decoding, word recognition, comprehension) to _____ - as measured by _____ (running records, probes, anecdotal records, work samples, etc.)
Objective #1	Demonstrate awareness of letter/sound relationships by identifying a minimum of letter/sound correspondences.
Objective #2	Demonstrate awareness of letter/sound relationships by identifying a minimum of letter/sound correspondences.
Objective #3	Read/write a minimum of high frequency words.
Objective #4	Use beginning, medial and ending letter cues to predict unknown words.
Objective #5	Locate specific words, phrases, word patterns, and sight words in familiar text.
Objective #6	Read predictable pattern books.
Objective #7	Read dictated or self-written texts.
Objective #8	Demonstrate understanding of basic letter/sound correspondence in all consonants and most blends, digraphs, and vowels in beginning, medial, and final position.
Objective #9	Demonstrate an understanding of basic word families and patterns.
Objective #10	Read 150 high frequency sight words from district list.

Content Strand:	Literature	« back
Annual Goal #3	_____ will increase ability to understand and respond to literature from various genres and geo-cultural groups to _____ as measured by _____ (State Scoring Guide, teacher survey, performance assessment, etc.)	
Objective #1	Identify and use a variety of nonfiction texts such as books, newspapers, and magazines.	
Objective #2	Make predictions before and during read aloud experiences.	
Objective #3	Retell a story aloud to include characters, setting, main idea, beginning, middle, and end of a story in sequence.	
Objective #4	Begin to understand the modes of writing by an author.	
Objective #5	Participate in dramatic re-enactment of stories with puppets, plays and readers' theater, etc.	
Objective #6	Listen to articles read aloud from several texts about the same subject to collect information.	
Objective #7	Use newspapers and magazines as sources of information for research.	
Objective #8	Read, listen to and interact with traditional and contemporary literature from a variety of cultures and genres.	
Objective #9	Identify similarities and differences among various genre, e.g., mystery, fantasy, historical fiction, science fictions, etc.	
Objective #10	Identify features of different literary forms, e.g., fiction, poetry, nonfiction, etc.	
Objective #11	Recognize and respond to the sounds and features of language, e.g., rhyme, rhythm, pattern, alliteration.	
Objective #12	Respond to literature through story mapping, story clocks, illustrations, cartooning, changing story endings, comparing different story versions and adaptations.	
Objective #13	Read literary selections from a variety of geo-cultural groups and time periods.	
Objective #14	Identify some examples and characteristics of literary forms from a variety of geo-cultural groups and time periods.	
Objective #15	Identify similarities and differences between two genre.	
Objective #16	Compare similarities of literary selections from a variety of cultures.	
Objective #17	Develop (3) Relate (5) Demonstrate (8) an understanding of their own and others' cultural contributions as explored in literature, classroom projects and activities.	
Objective #18	Explore books in different genres, and representing diverse cultures.	
Objective #19	Identify the social and historical context and point of view in pieces of literature.	
Objective #20	Read and identify literary forms including novels, short stories, poetry, plays and nonfiction from a variety of geo-cultural groups and time periods.	
Objective #21	Explain similarities and differences between more than two genres.	
Objective #22	Compare and contrast literary selections from a variety of cultures and time periods.	
Objective #23	Read and identify distinguishing characteristics of a variety of literary forms, including novels, short stories, poetry, plays and nonfiction from a variety of geo-cultural groups and time periods.	
Objective #24	Analyze the characteristics of various genres from geo-cultural groups and time periods.	

Objective #25	Make comparisons and generalizations of literary forms and genres from various cultures and time periods.
Objective #26	Extend understandings of own and others' cultural heritage as revealed in diverse literature.
Objective #27	Make comparisons, generalizations, and connections between texts.
Objective #28	Retell a story, read aloud, to include characters, setting, events in a sequence, and main idea.
Objective #29	Recognize and respond to the sounds and features of language, e.g., rhyme, pattern, alliteration.
Objective #30	Orally predict/form inferences about story characters and events during read alouds.
Objective #31	Identify some of the actions and motivation of characters given the context of the literature.
Objective #32	Begin to identify the point of view of the writer, and how it impacts the literature.
Objective #33	Distinguish between facts and opinions in texts.
Objective #34	Identify some traits of stereotypical and/or realistic characters.
Objective #35	Make inferences and draw conclusions about how the development of character, plot, and setting contribute to the overall impact of the selection.
Objective #36	Identify literary devices such as rhyme, figurative language, dialogues, similes, metaphors, and flashbacks.
Objective #37	Analyze how the effect of the author's choice of literary devices, structure, and word choice impact the selection.
Objective #38	Identify if a plot is imaginative or realistic.
Objective #39	Describe (5) /identify and compare (8) traits of stereotypical characters and realistic characters.
Objective #40	Critique the degree to which a plot is contrived or realistic, and how it affects the story.
Objective #41	Analyze the reasons for a character's actions, taking into account the situation and basic motivation of the character.
Objective #42	Analyze the author's purpose and examine how stylistic decisions (e.g., structure, point of view, word choices, and exaggeration) contribute to it.
Objective #43	Recognize and analyze persuasive and manipulative language (e.g., advertising, propaganda, coercive talk).
Objective #44	Begin to analyze the use of literary devices such as similes, metaphors, flashbacks, rhyme and dialogue.
Objective #45	Analyze the effect or purpose of literary devices such as figurative language, allusion, fiction, dialogue, transitions, paraphrasing and description in literary works.
Objective #46	Demonstrate an understanding of linguistic differences among varied regional, social, and cultural groups.
Objective #47	Support or challenge authors' assumptions, perspectives, claims, or conclusions with reasons.
Objective #48	Develop more than one interpretation of work of literature, all supported with relevant information from the text.
Objective #49	Interpret ambiguities, subtleties, contradictions, ironies, and nuances.
Objective #50	Discuss elements of literary works using the vocabulary of literary study (characters, setting, plot, theme, voice, tone, and rhetorical devices).
Objective #51	Analyze spoken and written language for literary effect (point of view and mood).
Objective #52	Analyze text for effect (e.g., language used to inform or entertain, for control, propaganda, to label, persuade, coerce or stereotype).

Objective #53	Analyze literary devices such as word play, styles, dialects, rhythm, flashbacks, etc.
Objective #54	Compare fables/folktales from two or more geo-cultural groups.
Objective #55	Compare and contrast similar stories from several geo-cultural groups.
Objective #56	Identify the historical context (time/place) of a book.
Objective #57	Identify the social and historical context of a book.
Objective #58	Identify reasons for a character's actions and motivations as they relate to the story's historical context.
Objective #59	Analyze written material for accuracy, bias, cultural sensitivity, and historical perspective.
Objective #60	Analyze how an author's culture affects his/her point of view.
Objective #61	Make inferences and draw conclusions about literary elements in relationship to the historical, cultural and social context of literary works.
Objective #62	Identify (3)/ analyze (5) persuasive and manipulative language in written material.
Objective #63	Identify linguistic differences in United States English (e.g., variations in vocabulary, speaking style, accent, and dialect) among various regional, social, and cultural groups.
Objective #64	Analyze the development and treatment of themes in a literary work.
Objective #65	Identify themes in literary works.
Objective #66	Identify/analyze similar themes across literary works.
Objective #67	Make connections between literary themes or messages and historical, social, and cultural issues or events.

Content Strand:	Phonemic Awareness (readiness) « back
Annual Goal #4	_____ will increase reading readiness skills in the area(s) of _____ (phonemics, print awareness, letter knowledge, decoding, word recognition, comprehension) to _____ as measured by _____ (running records, probes, anecdotal records, work samples, etc.)
Objective #1	Hear (count) syllables in words.
Objective #2	Match like sounds in words at the beginning and end of words.
Objective #3	Identify and generate rhyming words.
Objective #4	Blend phonemes orally.
Objective #5	Hear and segment initial, medial and final phonemes.
Objective #6	Identify sounds heard within the environment.
Objective #7	Hear and identify sounds in words including rhyming words, simple syllable segmentation and beginning sounds.
Objective #8	Identify/utilize rhyming words in a variety of literature (e.g. poems, verses, pattern stories, personal creative composition.)
Objective #9	Hear and manipulate the separate sounds in spoken words.
Objective #10	Identify syllables in words using rhythm patterns/ clapping to count the number of syllables.
Objective #11	Identify the initial/ending sound in a word.

Content Strand:	Print Awareness And Letter Knowledge (readiness) « back
Annual Goal #5	_____ will increase reading readiness skills in the area(s) of _____ - (phonemics, print awareness, letter knowledge, decoding, word recognition, comprehension) to _____ as measured by _____ (running records, probes, anecdotal records, work samples, etc.)
Objective #1	Demonstrate orientation to a book (e.g., front to back, top to bottom, left to right).
Objective #2	Demonstrate by pointing to pictures that pictures provide information.
Objective #3	Follow words left to right and top to bottom with return sweep.
Objective #4	Demonstrate by pointing that the print and picture give meaning to the book.
Objective #5	Demonstrate an understanding of the concepts of words by matching, pairing words with pictures and identifying common environmental words.
Objective #6	Recognize symbols and words in the classroom, school and community (e.g., classroom labels, outdoor labels such as STOP).
Objective #7	Recognize name and words that begin with the same letter symbol as own name.
Objective #8	Distinguish between letters, words and numerals in a line of print.
Objective #9	Match familiar words age-appropriate test (e.g., one-to-one).
Objective #10	Recognize own name in print.
Objective #11	Recognize the meaning of language, prior knowledge of word order, and/or punctuation to give meaning to reading.
Objective #12	Follow words left to right and top to bottom with return sweep.
Objective #13	Identify upper and lower case letters of the alphabet.
Objective #14	Identify names of upper and lowercase letters (PK: few, K: 40, 1st Grade: all).
Objective #15	Spell words/names by identifying the letters in the name or word.
Objective #16	Distinguish letters from words.
Objective #17	Recognize beginning and ending of a sentence.

Content Strand:	Reading Accuracy And Fluency « back
Annual Goal #6	_____ will increase reading accuracy and fluency to _____ (grade/proficiency level) as measured by _____ (running records, probe, anecdotal records, work samples, etc.)
Objective #1	Use beginning and ending consonants, vowel patterns and blends to predict unknown words.
Objective #2	Track words in a one-to-one voice/word match on familiar text.
Objective #3	Use framing to assist in decoding isolated letters or words.
Objective #4	Use punctuation to gain meaning in context of reading.
Objective #5	Read aloud accurately (90% to 100%) material from the grade level sample reading list.
Objective #6	Use phonetic generalizations (e.g., sound-symbol relationships, blends, word families, affixes, and syllabication) to gain meaning from print.
Objective #7	Use a balance of the cueing strategies to construct meaning with new text (e.g., lettersound/graphophonemic, context/semantic, language structure/syntax).

Objective #8	Use known words to decode unknown words.
Objective #9	Apply knowledge of blending to decode CVC words in text.
Objective #10	Apply knowledge of syllabication to decide words in text.
Objective #11	Use a variety of strategies: rereading, reading on, monitoring, cross checking, predicting, confirming, searching and self-correcting.
Objective #12	Read using a balance of phonetic, semantic, and syntactic cues.
Objective #13	Use knowledge of phonics to blend sounds for more complex words (e.g., digraphs, blends, vowels, word families, consonants).
Objective #14	Self-correct consistently when reading using phonics, language structure, contextual clues, illustrations and text organizers.
Objective #15	Read familiar material with natural phrasing, expression, and appropriate pacing to engage listeners.
Objective #16	Identify sound/symbol relationship for _____ consonant sounds.
Objective #17	Read words containing short and long vowel sounds in context.
Objective #18	Read words containing digraph sounds (e.g., dish, chip).
Objective #19	Read words that contain "y" used as a consonant or vowel in context.
Objective #20	Read words with diphthongs in context (e.g., cow, soup).
Objective #21	Read words with vowel combinations followed by r, w and l, in context (e.g., start, saw, all).
Objective #22	Read words with silent letters in context (e.g., sight, wrap).
Objective #23	Read words that contain the hard and soft "c" and "g" sounds in context.
Objective #24	Use conventions of print, e.g., comma, period, question mark, quotation marks, to facilitate oral reading.
Objective #25	Develop automaticity when reading high frequency words in text.
Objective #26	Read familiar or predictable texts at natural spoken rate.
Objective #27	Read familiar material with natural rhythm, phrasing, expression, and appropriate pacing.
Objective #28	Read multi-syllabic words in context.
Objective #29	Read compound words-in context.
Objective #30	Recognize base words, prefixes, and suffixes in context.
Objective #31	Read words based on common word families/patterns in context.
Objective #32	State component parts of contractions in context.
Objective #33	Read sight words in context.
Objective #34	Read high frequency sight words (1: 150 words, 2: 250 words).
Objective #35	Read complex word structures (e.g., compound words, contractions, affixes, roots and plurals).
Objective #36	Recognize and determine meanings of words using contextual clues, phonics, and illustrations.
Objective #37	Recognize and determine meanings of words using contextual and phonetic clues, and syntax (structure).
Objective #38	Recognize high frequency words when reading grade appropriate text.
Objective #39	Identify and read new vocabulary when encountering difficult text.
Objective #40	Recognize that words have more than one meaning.

Content Strand:	Reading Comprehension	« back
Annual Goal #7	_____ will increase comprehension of a variety of printed materials to _____ - as measured by _____ (running records, IRI, anecdotal data, observation, performance assessment, etc.)	
Objective #1	Locate information and clarify meaning by skimming, scanning, reading carefully, and using other reading strategies.	
Objective #2	Clarify meaning by skimming, scanning, and reading carefully.	
Objective #3	Review text to locate information and clarify meaning by skimming, scanning, reading carefully, and using other reading strategies.	
Objective #4	Apply various prereading strategies (e.g., preview, skimming).	
Objective #5	Apply reading strategies (e.g., slowing down, saying "blank", reading on, consulting a reference, or asking for help).	
Objective #6	Use word attack strategies to locate specific words, phrases, word patterns and recognize sight words when returning to familiar text.	
Objective #7	Recognize and adjust reading strategies to accommodate the difficulty, purpose, and interest of different texts.	
Objective #8	Return to text to locate information, support conclusions and answer questions.	
Objective #9	Develop strategies for locating words and their definitions in the dictionary and locating information in reference materials.	
Objective #10	Use information from illustrations, tables of contents, glossaries, indexes, headings, graphs, charts, diagrams, and/or tables to assist in comprehension of text.	
Objective #11	Develop an understanding of text organization and structure to assist in comprehension (e.g., cause-effect, time order, order of importance).	
Objective #12	Use visual information in texts to locate answers and/or assist in understanding.	
Objective #13	Identify and address text-based sources of reading difficulty (e.g., unfamiliar organization, difficult vocabulary, too much information) when doing coursework.	
Objective #14	Adjust their reading and monitor comprehension strategies to accommodate the content, for, purpose and difficulty of the material.	
Objective #15	Use a variety of strategies: Rereading, reading on, monitoring, cross checking, predicting, confirming, searching and self-correcting.	
Objective #16	Identify the beginning, middle, and end of a story.	
Objective #17	Identify the sequence of events in a reading selection.	
Objective #18	Retell story events, repeated patterns or information from a reading.	
Objective #19	Recall main ideas and supporting details in a reading selection.	
Objective #20	Identify sequence of events, main ideas, and details or facts in literary and informational text.	
Objective #21	Identify story elements such as character, setting, plot, main idea, and mood in stories read.	
Objective #22	Ask questions, make observations and draw conclusions from a story.	
Objective #23	Retell, summarize, and paraphrase when reading or listening to others.	

Objective #24	Return to text and illustrations to locate information, support conclusions, and answer questions.
Objective #25	Respond to readings in many ways (e.g., learning logs, topic webbings, etc).
Objective #26	Identify reference materials and nonfiction sources (e.g., library, dictionary to locate information).
Objective #27	Recall details and the main idea after reading a selection.
Objective #28	Retell a story independently to include character, setting, beginning, middle and end of story.
Objective #29	Develop strategies for locating informatin in reference materials.
Objective #30	Restate, paraphrase and summarize what is read to monitor understanding when reading or listening to others read in a variety of texts.
Objective #31	Use paraphrasing to monitor understanding when reading or listening to others read.
Objective #32	Identify any information that is extraneous or missing (e.g., story elements, directions, math problems).
Objective #33	Identify in functional documents the sequence of activities needed to carry out a procedure in functional documents.
Objective #34	Identify any information that is extraneous or missing (e.g., story elements, directions, math problems).
Objective #35	Summarize or retell to demonstrate understanding of the central ideas and significant details of the material.
Objective #36	Relate new information to personal experiences and previous knowledge.
Objective #37	Make simple predictions before, during or after reading.
Objective #38	Write or share new endings for additional events for stories read.
Objective #39	Identify cause and effect relationships.
Objective #40	Ask purposeful questions about the material being read.

Objective #17	Investigate and solve linear and nonlinear equations and inequalities using concrete, informal and formal methods.	
Objective #18	Demonstrate an understanding of properties of functions such as slope, evaluation, and solutions.	
Objective #19	Use physical models, pictures and reasoning to solve equations representing word problems.	
Objective #20	Use physical and visual models, and equations to solve problems.	
Objective #21	Represent and solve problems using recursive relationships and/or matrices.	
Objective #22	Represent and describe mathematical relationships between two quantities using pictures, words, objects, and/or symbols (3) and/or manipulatives.	
Objective #23	Use and analyze simple relationships shown on graphs and tables.	
Objective #24	Recognize and use relationships and logical thinking skills to make predictions and solve problems.	

Objective #25	Represent mathematical relationships using tables, graphs, patterns, generalizations, variables, and equations.
Objective #26	Represent and analyze discrete structures and continuous functions using tables, graphs, matrices, and/or equations to make generalizations.
Objective #27	Describe a pattern or relationship using a table, graph, and algebraic expressions (e. G. , write a formula to express variation relationships).
Objective #28	Explain how one quantity determines another in a pattern.
Objective #29	Represent how a change in one quantity can result in a change in another.
Objective #30	Describe patterns using arithmetic and geometric sequences.
Objective #31	Plot integers on a number line and plot position on the coordinate grid.
Objective #32	Recognize that the relationships between two quantities remains the same as long as the same change is made to both quantities.
Objective #33	Recognize proportional and non-proportional relationships between quantities.
Objective #34	Express algebraic relationships using variables and open sentences.
Objective #35	Analyze relationships to explain how a change in one quantity results in a change in another.
Objective #36	Explain how a change in one quantity produces a change in another algebraically and in applied situations.

Annual Goal #2 _____ will increase the ability to reason about geometric figures and properties and use models, coordinates, and transformational geometry to solve problems to _____ as measured by _____ (state scoring guide, teacher survey, performance assessment, etc.).

Objective #1	Apply concepts and properties of geometric figures to solve problems.
Objective #2	Match/classify/identify, name simple geometric objects according to attributes.
Objective #3	Fit manipulatives together and take them apart (e.g., legos. Puzzles, shape boxes, etc.).
Objective #4	Explore spatial relationships using manipulatives (e.g., pattern blocks, tiles, or blocks to build various shapes).
Objective #5	Identify and describe shapes; square, rectangle, rhombus, trapezoid. Parallelogram, triangle, circle, oval, cube, cylinder, and sphere.
Objective #6	Identify properties of geometric figures (e. G. , a triangle has three sides, a square has four equal sides, etc.).
Objective #7	Identify similarities and differences of two or more geometric figures by attributes.
Objective #8	Describe people. Places and things from various spatial viewpoints (e. G. . Verbally, drawing, clay).
Objective #9	Compare figures of like shape by size.
Objective #10	Identify figures of like shape and size (congruent figures).
Objective #11	Identify basic geometric shapes and relate them to objects in the physical world.
Objective #12	Sort, describe and compare geometric shapes, including polygons such as triangles and quadrilaterals, circles, and three dimensional shapes.

Objective #13	Sort, identify. Describe and compare geometric shapes, including polygons, all types of triangles, circles, and three dimensional figures (sphere, cylinder, cone, prisms, pyramids).
Objective #14	Copy/create two or three dimensional designs.
Objective #15	Copy or extend patterns using concrete models and drawing pictures.
Objective #16	Sketch and identify points/lines/segments/rays/congruent, parallel. Perpendicular, and intersecting lines and segments.
Objective #17	Locate and plot coordinate points on graph paper.
Objective #18	Locate and connect points on a graph given ordered pair of numbers.
Objective #19	Graph or name coordinates of points on graph paper, maps, globes, and other charts.
Objective #20	Use geometric terms correctly, including side, edge, angle, face, vertex, point, line, line segment. And polygon (triangle, ail quadrilaterals, pentagon, hexagon, octagon), circle, perimeter, area, circumference, volume, etc.
Objective #21	Use geometric terms correctly, including points, lines, planes, rays, vertices, segments, faces: types of angles, polygons, solids. Features of circles. (radius. Chord, diameter, tangent line), and properties of parallel and perpendicular.
Objective #22	Demonstrate an understanding of perimeter, area, and volume using concrete objects.
Objective #23	Demonstrate ways of finding perimeter and area of triangles, circles, parallelograms, trapezoids, and rectangles.
Objective #24	Calculate the surface areas of regularly-shaped solids (e. G. , cubes, and other rectangles or prisms).
Objective #25	Demonstrate, sketch, and identify angles [right, acute, obtuse and straight angles).
Objective #26	Classify two- and three-dimensional objects by geometric properties.
Objective #27	Construct various geometric figures using appropriate tools including protractors, compasses and geometric software of computers.
Objective #28	Identify conditions under which two figures are symmetrical.
Objective #29	Recognize figures formed when shapes are combined.
Objective #30	Identify and predict the effects of combing and dividing shapes.
Objective #31	Sort and compare similarities and differences in simple polygons using properties such as the number of sides and corners, congruence. or symmetry.
Objective #32	Identify properties of congruence and symmetry in triangles and quadrilaterals.
Objective #33	Classify and compare polygons and polyhedra according to properties, including such properties as congruence, rotational and reflective symmetry, and similarity.
Objective #34	Recognize that shape change appearance, but retain characteristics when turned, flipped or moved.
Objective #35	Recognize congruence of shapes as they are rotated or flipped.
Objective #36	Represent two- and three-dimensional figures with concrete objects.
Objective #37	Represent (5) or draw (8) two- and three-dimensional figures.
Objective #38	Draw and describe two- and three-dimensional objects including circumference their area, surface area and volume.

Objective #39	Identify (3) recognize and describe (5) geometric shapes in natural and constructed environments.
Objective #40	Solve problems using geometric models and properties of figures (i.e., Pythagorean Theorem).
Objective #41	Recognize geometric shapes and their properties and prove relationships between them.
Objective #42	Make and test simple conjectures about geometric shapes and their properties, incorporating technology where appropriate.
Objective #43	Form and explore conjectures about geometric properties of quadrilaterals using concrete objects, drawings, and computer programs (e.g. , symmetry, congruence, and number of parallel sides).
Objective #44	Make conjectures to discover or verify properties of geometric figures using given assumptions.
Objective #45	Recognize translations, rotation, reflections and dilations of geometric figures, including effects of size and transformations (e.g., recognize properties which remain the same under transformations).
Objective #46	Predict and justify the effect of transformations on geometric figures.
Objective #47	Solve problems using properties of similar triangles and ratios of right triangles (including three basic trigonometric).
Objective #48	Justify or generalize relationships between properties of figures using given assumptions.
Objective #49	Write informal arguments to prove properties of figures.
Objective #50	Apply geometric concepts in the physical world.
Objective #51	Identify and locate points on simple grids.
Objective #52	Identify and locate positive points on a coordinate grid.
Objective #53	Identify and locate points by coordinates. Using four quadrants.
Objective #54	Represent geometric figures and properties using coordinate systems.
Objective #55	Solve problems in one, two, and three dimensions using distance and midpoint formulas.
Objective #56	Recognize slopes of parallel and perpendicular lines.
Objective #57	Demonstrate an understanding of geometric terms including side, edge, angle, face, point, line segment, and polygon.

Annual Goal #3 _____ will increase ability to design, use and communicate a variety of mathematical strategies to solve problems to _____ as measured by _____ (state scoring guide, teacher survey, performance assessment, etc.).

Objective #1	Review solutions to see if they are accurate and reasonable.
Objective #2	Accurately compute and/or apply models to solve problems.
Objective #3	Identify problems that need a solution.
Objective #4	Use pictures. Models, diagrams, and symbols to show main mathematical concepts in the problem.
Objective #5	Clarify a problem using questions.
Objective #6	Select and use relevant information in a problem to solve it.
Objective #7	Identify multiple approaches to solve problems.
Objective #8	Solve one step/multiple step word problems.

Objective #9	Solve problems using manipulative/role playing/guess and check/drawing.
Objective #10	Solve problems using strategies (e.g., guessing and checking, looking for a pattern, making systematic lists, making a drawing or model. Eliminating possible answers, or solving a simpler related problem).
Objective #11	Solve one step/multiple step word problems involving money, measurement, and data presented in graphs, tables, and charts.
Objective #12	Create word problems to match additions, subtraction, multiplication. And division algorithms.
Objective #13	Create and solve word problems to match whole number, fraction and decimal number sentences.
Objective #14	Select and use mathematical strategies to solve problems (e.g., guess and check, patterns, systematic lists. Drawing, etc.
Objective #15	Select. Use, and complete appropriate mathematical strategies.
Objective #16	Use ration and proportion to identify, invent, or create problems that can be solved.
Objective #17	Apply graphic and/or numeric and/or abstract models to solve the problem.
Objective #18	Review/check the process and strategy to solve problems.
Objective #19	Present the problem's main idea clearly with supporting details to show reasoning.
Objective #20	Present the problem in an organized manner with clear reasoning applicable to the problem.
Objective #21	Use appropriate mathematical terminology.
Objective #22	Describe in simple math terms how a solution was reached and any obstacles encountered.
Objective #23	Review/check the work and support the reasonableness of problem solutions.

Content Strand:	Measurement	« back
Annual Goal #4	_____ will increase the ability to select and use units and tools of measurements to _____ as measured by _____ (state scoring guide, teacher survey, performance assessment).	
Objective #1	Develop understanding of measurement and apply appropriate units and tools.	
Objective #2	Name and explore scales, rulers. Measuring cups. Money thermometers and clocks.	
Objective #3	Identify the function of scales, rulers. Measuring cups, money, thermometers, and clocks.	
Objective #4	Use appropriate terminology when comparing size, quantity, height, length, weight, area, volume, time, temperature, money and angle using appropriate units of measure for each.	
Objective #5	Demonstrate an understanding of measurement and concepts related to length. Perimeter. Weight area, volume. Time, temperature, money and angle using appropriate units of measure far each.	
Objective #6	Count. Name, give values of, and compute with units of money.	
Objective #7	Identify/name/state value for coins (e.g., penny, nickel, dime, and quarter.	
Objective #8	Add like coins totaling up to _____.	
Objective #9	Count and total assorted coin combinations up to_____.	
Objective #10	Add and subtract coin/bills.	
Objective #11	Count change/currency/change and currency to equal a purchase price (store. Vending machine, telephone).	
Objective #12	Read/write prices in dollar and cent amounts.	

Objective #13	Solve money problems with a calculator (e.g., purchasing, making change).
Objective #14	Open and use a simulate/real savings account.
Objective #15	Write checks and maintain a balanced account (simulated or real).
Objective #16	Prepare and maintain a personal budget :or a specified period of me.
Objective #17	Mark events on a time line.
Objective #18	Identify a sequence of activities of the day using a picture/concrete calendar.
Objective #19	Predict upcoming events using environmental cues (e. G. . Bells. Scheduled activities. Programs, TV programs, picture/concrete calendar.).
Objective #20	Locate the day, month and year on a calendar.
Objective #21	Identify activities that occur in the morning, afternoon. Evening. And nighttime.
Objective #22	Use terms relative to the time sequences (e.g., before, after, first, next, last).
Objective #23	Explain a.m. and p.m.
Objective #24	Use terms yesterday, today and tomorrow.
Objective #25	Explain common time expressions (e.g., till, after, before).
Objective #26	Name/read/write the days week/months/seasons of the year in sequence.
Objective #27	Use temperature terms as they occur in daily situations (e.g., hot, cold, warm).
Objective #28	Read temperature on a thermometer.
Objective #29	Use standard measurement systems, both metric and customary, including derived units. Unit conversions, and dimensional analysis.
Objective #30	Select and use appropriate units and tools to measure to the degree of accuracy required in particular situations.
Objective #31	Tell time to the minute/nearest 5 minutes/hour/half hour/quarter hour.
Objective #32	Add and subtract time to solve a problem.
Objective #33	Interpret time using a digital clock.
Objective #34	Determine time in another time zone and compute difference between zones.
Objective #35	Identify measurement tools and symbols.
Objective #36	Weigh objects in grams/kilograms/ounce/pounds using appropriate stales.
Objective #37	Know and use relationship among units in bath the metric system and in the customary systems.
Objective #38	Identify length on a ruler.
Objective #39	Measure the length of a line.
Objective #40	Measure ounce/cup/pint quart/gallon.
Objective #41	Measure using measuring spoons, cups and fractions of cups
Objective #42	Carry out simple unit conversions, such as between cm and m. And between hours and minutes.
Objective #43	Convert ounces/cups/pints/quarts/gallons.
Objective #44	Convent with ease between like units within customary and within metric systems.
Objective #45	Know and use physical references for both metric and customary measurements.
Objective #46	Identify which metric unit of measurement would be used to measure weight of an object.

Objective #47	Measure length. Weight, area, time and temperature, volume and angle, pen-meter and distance using standard and nonstandard units of measurement.
Objective #48	Order real objects by a single relationship (i.e., length-taller, tallest, shorter, shortest; weight-heavier, lighter; volume-more, less).
Objective #49	Explore the concepts of weight [mass using a balance scale and common classroom objects by using terms such as: lighter, heavier, same, etc..
Objective #50	Take and read body temperature.
Objective #51	Measure length. Weight. Area, temperature. Volume. Angle and distance of regular and irregular shapes using standard and nonstandard units of measurement.
Objective #52	Estimate measurement of length and weight.
Objective #53	Make and use estimates of length. Weight. Capacity, angle, money and time (51, perimeter. Area, volume. And temperature using standard and nonstandard units.
Objective #54	Measure length and distance to scale on a map.
Objective #55	Demonstrate money-management skills.
Objective #56	Anticipate upcoming events using environmental cues (e. G. , bells, scheduled activities. TV programs).
Objective #57	Estimate required time for an activity.
Objective #58	Estimate, read and record temperature in degrees Celsius/Fahrenheit.
Objective #59	Put objects in order by length, weight. And volume, first by estimating and then by measuring exactly with standard or nonstandard units.
Objective #60	Construct, read and use number lines. Graphs, and simple scales various types of scales on maps.
Objective #61	Determine the change in surface area and volume when linear measurements are changed.
Objective #62	Determine areas of figures on geoboards and graph paper, including right mangles.
Objective #63	Calculate length. Right. Angle. Volume. Distance. Area. Perimeter and speed using tools, scale drawing, rations. proportions, models and formulas.
Objective #64	Measure areas of large shapes using unit shapes (i.e., square pieces of paper).
Objective #65	Make and use a scale drawing (i.e., rough sketches. Diagrams, or precise scale diagrams) to move between actual size and scaled representations.
Objective #66	Make predictions and comparisons based on interpretation of scales.

Objective #1	Compute with whole numbers. fractions, decimals and integers using paper and pencil, calculators, and computers.
Objective #2	Read, write, order and compare numbers to 9,000, numbers to 1,000,000, rational numbers, real numbers.
Objective #3	Count to _____.

Objective #4	Identify number of objects in a set to _____.
Objective #5	Identify numerals in print to _____.
Objective #6	Match sets to _____.
Objective #7	Match/copy/write numerals to _____.
Objective #8	Match a numeral to a set of objects.
Objective #9	Write numbers in numerals and/or words to _____.
Objective #10	"Count on" from _____ to _____.
Objective #11	Count by 5's/10's to 100.
Objective #12	Demonstrate an understanding of magnitude and relationships of numbers up to 7. W (3). Numbers up to 1,000,wo (5). Very large/very small numbers in the physical world.
Objective #13	Demonstrate numbers of different magnitude using order relations, differences, ratios. Proportions, percents, proportional change and location on the number line.
Objective #14	Indicate position in number sequence using ordinal number names.
Objective #15	Use models to demonstrate meaning and relative size of commonly used fractions.
Objective #16	Demonstrate an understanding of and apply place value to ten-thousands, including the use of physical models.
Objective #17	Represent number real numbers using graphs, sketches, diagrams, and manipulatives.
Objective #18	Recognize. Apply and convert among equivalent forms of rational numbers.
Objective #19	Interpret percent as a part of 100 and as means of comparing quantities of different sizes of changing sizes.
Objective #20	Order, compare. Rename, and represent numbers written as percents.
Objective #21	Solve percent problems.
Objective #22	Demonstrate an understanding of integers through applications.
Objective #23	Identify, name and use models to demonstrate meaning and relative size of commonly used fractions (wholes, Halves, thirds, fourths, eighths).
Objective #24	Demonstrate an understanding of equivalent fractions.
Objective #25	Order and compare fractions with like or unlike denominators.
Objective #26	Solve problems involving equivalent fractions or equal ratios using proportional reasoning.
Objective #27	Demonstrate an understanding of the relationship between improper fractions and mixed numbers.
Objective #28	Add and subtract commonly-used fractions with like/unlike denominators and/or mixed-numbers.
Objective #29	Demonstrate an understanding of the relationships between commonly used decimals and fractions.
Objective #30	Order, compare, rename and represent numbers written as decimal fractions.
Objective #31	Represent numbers in decimal or fraction form and in scientific notation.
Objective #32	Demonstrate fractional and decimal concepts in a variety of contexts including linear measures, areas, sets, and money.
Objective #33	Add and subtract dollars and cents.
Objective #34	Multiply and divide dollars and cents by a whole number.

Objective #35	Add and subtract decimals involving tenths/hundredths/thousandths.
Objective #36	Multiply and divide decimals to thousandths by decimals and whole numbers.
Objective #37	Demonstrate an understanding of the relationship between common fractions and simple percents.
Objective #38	Apply concepts of ratio, proportion and percent in a wide variety of practical and other mathematical situations.
Objective #39	Recognize and use concepts related to multiples, factors, primes, and composites.
Objective #40	Use manipulatives to combine two sets and identify a sum.
Objective #41	Use appropriate terminology when adding two sets.
Objective #42	Use manipulatives to demonstrate 1 digit addition to 10/18.
Objective #43	Use manipulatives to remove objects in a set and identify the difference.
Objective #44	Use appropriate terminology when subtracting (e.g., minus, equals, difference, subtract).
Objective #45	Use manipulative to demonstrate single digit subtraction.
Objective #46	Perform whole number calculations using paper and pencil and calculators (including counting on, doubles, neighbors, and properties).
Objective #47	Know and use addition and subtraction facts to 18.
Objective #48	Add columns of single digits using a variety of computational strategies.
Objective #49	Add and subtract multi-digit numbers. Using a variety of computation strategies including algorithms such as regrouping.
Objective #50	Explain and use mental math strategies to compute 2 and 3 digit addition and subtraction problems.
Objective #51	Demonstrate concepts of addition. Subtraction, multiplication and division with and without calculators, using models or diagrams.
Objective #52	Multiply single digit numbers using a variety of strategies.
Objective #53	Multiply by 2's through 5's.
Objective #54	Multiply by 6 s through 10's.
Objective #55	Know and use the multiplication facts through 10's.
Objective #56	Solve multiplication problems (i.e., jumps on a number, counting squares on a grid, combining rods to indicate products) using a variety of strategies. .
Objective #57	Relate basic division facts to inverse of the basic multiplication facts.
Objective #58	Know and use the division facts through 10's.
Objective #59	Divide whole numbers with/without remainders, with 2-digit divisor, and with/without concrete objects.
Objective #60	Perform calculations on whole numbers, fractions, decimals, percents and integers using paper and pencil, calculators and/or computers.
Objective #61	Show place value to _____ using concrete models.
Objective #62	Apply concepts of place value and grouping in whole number operations, using concrete models.
Objective #63	Solve simulated and real-life problems using number and numeration skills.
Objective #64	Compute and estimate factors to 700 using knowledge of multiples and factors.

Objective #65	Select and use appropriate operations such as addition, subtraction, multiplication and division to solve problems of rational numbers.
Objective #66	Know when and how to use calculators to solve problems.
Objective #67	Explain and use strategies to mentally add, subtract, multiply and divide.
Objective #68	Model, explain and calculate addition, subtraction and simple multiplication with commonly used fractions and decimals using paper and pencil and calculators.
Objective #69	Add, subtract, multiply and divide rational numbers using mental arithmetic. Paper and pencil and calculators.
Objective #70	Use correct order of operations.
Objective #71	Compute the values of powers and roots.
Objective #72	Demonstrate meaning of the four basic operations using diagrams, grid paper, base 10 or other base pieces. Tiles of other manipulates.
Objective #73	Check/verify that results are accurate for a problem.
Objective #74	Perform numeric and algebraic calculations on real numbers using paper and pencil. Calculators, and computer programs.
Objective #75	Demonstrate an understanding of and use a variety of models for operations on real numbers.
Objective #76	Estimate number of objects by matching approximate quantities.
Objective #77	Represent approximate quantities with a symbol.
Objective #78	Estimate the number of objects in a container that holds less than 20/50/100 objects.
Objective #79	Estimate solutions to problems and determine if the results are accurate.
Objective #80	Estimate and check answers using place-value concepts like rounding off and front-end.
Objective #81	Estimate addition and subtraction problems by using a variety of strategies.
Objective #82	Estimate whole number and fraction operations and determine the accuracy of solutions using a variety of strategies.
Objective #83	Estimate solutions to problems involving rational numbers real numbers and determine if the results are accurate and reasonable using a variety of strategies.
Objective #84	Use estimation and/or approximation to make reasonable estimates of quantities to 1,000.
Objective #85	Round one, two or three-digit numbers to nearest 10, 100, and 1,000 for addition and subtraction problems.
Objective #86	Round numbers from nearest hundredth to nearest ten thousands place.
Objective #87	Round numbers from the nearest thousandths to nearest millions place and determine when to round up, when to truncate and to which place rounding would be most useful.
Objective #88	Demonstrate an understanding of concept of odd and even.
Objective #89	Apply concepts of primes, factors and multiples in whole number and fractions.
Objective #90	Find, identify and sort numbers by their properties (i.e., odd, even, greater than lesser than, prime, composite, factors, and multiples).
Objective #91	Represent numbers in different forms using: prime factorization, expanded and scientific notation, different bases, exponential notation.

- Objective #92 Demonstrate an understanding of properties of commutativity, distributivity and associativity to calculate mentally.
- Objective #93 Demonstrate an understanding of properties of rational numbers, e.g., commutativity and associativity (short of formal statements).
- Objective #94 Model the relationships among whole numbers, decimal, fraction, percent, exponent and integer operations to solve problems including the relationships involving ratio and proportions.
- Objective #95 Solve problems using matrices.
- Objective #96 Form and work with algebraic expressions using the properties of addition, subtraction, multiplication, division, exponentiation and root-extraction.
- Objective #97 Identify properties of sets of numbers and of patterns using number theory concepts.
